

Learning from Home

The following provides you with key information regarding your son's learning from home once school holidays are completed on Tuesday 14 April. Whilst a lot of learning material will be uploaded by teachers prior to this date, your son is not expected to commence learning from home until this date.

Each faculty has provided a table which summarises the following:

- The expected learning time per week for each subject at each level.
- The online learning platform being used for learning.
- The teacher contact details should you have any questions or experience any issues.

Streamlining communication channels during this time is important. We ask you do the following should you have any questions:

1. Contact the classroom teacher directly if you have concerns.
2. Should you not get a response, or still have concerns please contact the Head of Faculty.
3. Should your concerns remain, please contact me via email: jmcdowall@stbedes.school.nz

The last page in this document provides weblinks to various sites that may assist in trouble shooting if your son experiences issues with online learning platforms.

We thank you for your support in assisting your sons with learning from home. It is important to get them into a regular learning routine to ensure they make sufficient progress whilst at home. In saying this, please remember their wellbeing and your families is the first priority.

Whilst this type of learning presents a new challenge, the staff have been using online learning platforms on a regular basis for many years. We are well placed, with your support, to ensure quality teaching and learning programmes continue.

We look forward to connecting with you all in an online forum and look forward to seeing your sons back at school in the near future.

Kind Regards

Jon McDowall

Deputy Rector – Teaching and Learning
